

## 4" HIGH THRUST SUBMERSIBLE MOTORS

### APPLICATIONS

These motors are built for superior dependability in 4" diameter or larger water wells. Temperature and time rating continuous in 30 °C (86 °F) water at 0.25 ft/sec flow past motor. Single-phase rotation, CCW facing shaft end; three-phase, electrically reversible.

### FEATURES

- Single-phase Voltage 230 V @ 60 Hz, 220 V @ 50 Hz
- Three-phase Voltage 200 V, 230 V, 380 V, 575 V @ 60 Hz, 460/380 V @ 60/50 Hz
- Corrosion-Resistant Construction
- Stainless Steel Splined Shaft
- Advanced Power-Dense 24-slot stator to maximize available horsepower per linear inch of motor length
- Hermetically-Sealed Windings
- Anti-Track Self-Healing Resin System
- Water Lubrication
- Filter Check Valve (Water Well)
- Kingsbury-type Thrust Bearing
- Pressure Equalizing Diaphragm
- Built-in Lightning Arrestors (single-phase)
- Removable Water-Bloc Lead installed in 60 Hz and dual frequency rated water well motors.
- NEMA Pump Mounting Dimensions
- UL 778 Recognized (North American Voltages)
- CSA C22.2 #108 Certified
- NSF/ANSI 61 Certified
- Sand Fighter® Slinger

### SPECIAL FEATURES

- **316 Stainless Steel:** Special construction option for acid, low pH, and saline applications.
- **Oil Stripper:** Special construction option for secondary oil recovery wells, geothermal, or other applications with high ambient temperatures. Consult factory for details.
- **World Wide Adaptability:** All standard voltage and Hertz ratings are offered. Contact Franklin Electric for availability.

### CONTROL BOXES

- Franklin's single-phase submersible Control Boxes are suitable for outdoor mounting with operation over temperature ranges of -10 °C (14 °F) to 50 °C (122 °F)
- Start and run winding overloads protect the motor from failure due to abnormal operating conditions
- Available in 3 and 5 hp ratings, the DELUXE Control Box incorporates a magnetic line contractor to eliminate the need for auxiliary contactors and heavy duty pressure switches
- A heavy duty terminal strip with box type lugs makes it easy to install up to #2 AWG wire
- Ground lugs provide a means of grounding the motor and Control Box to the power supply ground in compliance with NEC and other national and local codes

**WARNING:** Serious or fatal electrical shock or fire hazard may result from failure to follow the instructions for proper installation and use which accompany this equipment.
