RELAY LOGIC SERIES™

Single Phase Duplex Control Panel

Function

The Relay Logic Series™ (RLS) control panel provides a reliable means of controlling two 120, 208 or 240V single phase pumps in pump chambers, sump pump basins, irrigation systems and lift stations. Magnetic motor contactors are used to turn the pumps on and off. Standard components are used allowing for easy troubleshooting and service.

Additional Components (not shown)

- Exterior alarm test/normal/silence switch
- Alarm horn

Part Number Model Number

- **1038604** RLS41W114H10E15A17A

Components

1. NEMA 4X enclosure rated for outdoor use
2. Magnetic motor contactors
3. Pump circuit breakers
4. Control/alarm circuit breaker
5. Float switch terminal block
6. Input power terminal block
7. Fused protection for control and alarm circuits
8. Pump HOA switches
9. Pump run indicator lights
10. Spare relay
11. Ground lugs
12. Lockable stainless steel hasps
13. Red alarm beacon
