

EZ SERIES® SIMPLEX

Single Phase Simplex Control Panel

The **EZ Series® Single Phase Simplex** panel is designed to control one 120/208/240V single phase pump in water and sewage installations. It features a **digital backlit LCD display** on the inside of the front cover for programming pump control and system monitoring, including: float status, elapsed time pump run, cycle counter, alarm counts (high water/power fail), float error count, auxiliary alarm counter, timer override count (TD only), on/off time (TD only). This innovative control panel is **easily converted** to demand or timed dose **in the field**.

OPTIONS

- DUO alarms for local code compliance
- Optional mounting post with removable access door for easy wiring
- Duplex model available (demand dose only)

PART NO. MODEL NUMBER

- **1030111** EZS21W114H3A6A8AC10E15A17G

COMPONENTS

1. NEMA 4X enclosure rated for outdoor use
2. Locking latch for added safety
3. Controller touch safe housing
4. Digital backlit LCD display; 2 lines, 16 characters per line
5. Pump Run button
6. Menu/Enter & Set/Change buttons for programming and viewing control panel
7. Two circuit breakers: one for pump power; another for control and alarm power
8. Pump run relay (30 amp) controls pump by switching electrical lines
9. Auxiliary alarm contacts
10. Large terminal strip for easy wiring
