

**Two Stage Split Case Centrifugal Pumps**

| ITEM NO. | NAME OF PART                              | STANDARD FITTED  | ALL IRON         | DUCTILE IRON BRONZE FITTED |
|----------|---|------------------|------------------|----------------------------|
| 1A       | Casing (Lower Half)                       | Cast Iron        | Cast Iron        | Ductile                    |
| 1B       | Casing (Upper Half)                       | Cast Iron        | Cast Iron        | Ductile                    |
| 2A       | Impeller (1st Stage)                      | Bronze           | Cast Iron        | Bronze                     |
| 2B       | Impeller (2nd Stage)                      | Bronze           | Cast Iron        | Bronze                     |
| 6        | Shaft                                     | 12L14            | 12L14            | 12L14                      |
| 7        | Casing Ring                               | Bronze           | Cast Iron        | Bronze                     |
| 8        | Impeller Ring                             | Bronze           | Steel            | Bronze                     |
| 14       | Shaft Sleeve                              | Stainless        | Stainless        | Stainless                  |
| 16       | Bearing (Inboard)                         | Steel            | Steel            | Steel                      |
| 17A      | Seal Cap                                  | Ductile          | Ductile          | Ductile                    |
| 18       | Bearing (Outboard)                        | Steel            | Steel            | Steel                      |
| 20       | Shaft Sleeve Nut                          | Bronze           | Steel            | Bronze                     |
| 31       | Water Jacketed Bearing Housing (Inboard)  | Cast Iron        | Cast Iron        | Cast Iron                  |
| 32       | Impeller Key                              | Stainless        | Stainless        | Stainless                  |
| 33       | Water Jacketed Bearing Housing (Outboard) | Cast Iron        | Cast Iron        | Cast Iron                  |
| 38       | Shaft Sleeve Gasket                       | Vellumoid        | Vellumoid        | Vellumoid                  |
| 40       | Deflector (Liquid)                        | Neoprene         | Neoprene         | Neoprene                   |
| 41       | Bearing Cap (Inboard)                     | Cast Iron        | Cast Iron        | Cast Iron                  |
| 43       | Bearing Cap (Outboard)                    | Cast Iron        | Cast Iron        | Cast Iron                  |
| 63       | Suffing Box Bushing                       | Bronze           | Cast Iron        | Bronze                     |
| 65       | Mechanical Shaft Seal (Stationary)        | Ni-Resist        | Ni-Resist        | Ni-Resist                  |
| 68       | Seal Collar                               | Bronze           | Steel            | Bronze                     |
| 72       | Thrust Collar                             | Steel            | Steel            | Steel                      |
| 73       | Casing Gasket - Suction Side              | Cork - Cellulose | Cork - Cellulose | Cork - Cellulose           |
| 73A      | Casing Gasket - Discharge Side            | Cork - Cellulose | Cork - Cellulose | Cork - Cellulose           |
| 73D      | Gasket (Seal Cap)                         | Cork - Cellulose | Cork - Cellulose | Cork - Cellulose           |
| 109      | Interstage Diaphragm                      | Bronze           | Cast Iron        | Bronze                     |
| 127A     | Seal Piping                               | Copper           | Steel            | Copper                     |
| 192      | Retaining Ring (Bearing)                  | Steel            | Steel            | Steel                      |
| 193      | Adapter Base                              | Steel            | Steel            | Steel                      |
